

ARC Impact: 2000-2002

Project: *Indiana Assessment System of Educational Proficiencies (IASEP)*

Response:

802 Teachers reported data on:
1981 students (1999-2000)
2090 students (2000-2001)

Reports:

4071 Individual student reports distributed to teachers and parents
126 Summary data reports distributed to special education directors
- State summary report generated for state director of special education

Surveys:

385 Responses to Teacher Post-Assessment Survey
245 Responses to Teacher Technology Attitude & Use Survey

Potential involvement:

1000 Teachers of students eligible for services
8107 Students identified with low-incidence disabilities

Project: *Early Childhood Assessment System (ECAS)*

Stakeholders:

25 Stakeholders met to discuss early childhood assessment issues

Pilot:

47 Teachers trained at nine pilot sites
20 Additional personnel attended training sessions

Data:

32 Teachers returned permission forms for child participation
128 Complete child data sets were analyzed

Validation study:

42 Children participated in validation study

Project: *Documenting Indiana's Academic Standards (DIAS)*

Stakeholders:

22 Stakeholders met to discuss issues related to Indiana state-wide assessments

Pilot:

91 High School teachers trained from 13 planning districts
4 Alternative education teachers trained from 2 middle school academies

Next steps:

-TRASK funds are supporting the development of a Web-based application of DIAS 2000
-School superintendents are being contacted to gauge interest in using DIAS 2000 to address PL 221 issues

Assessment and Instructional Management System (AIMS): In partnership with Measured Progress

States under contract and number of teachers using AIMS

Rhode Island	24
South Carolina	24
New Jersey	32
New Hampshire	52
Massachusetts	140
Illinois	255
Total	527

Estimated number of students using AIMS: 2600-3100

States with contracts pending:

- New York
- Tennessee
- Ohio

AIMS Rally: Indianapolis 7/2001

120 Teachers from participating states met to share ideas for using AIMS

18 Professionals from Purdue, Measured Progress, and the University of Kentucky

11 ARC faculty/students/staff presented research, development, and engagement activities
